

Need to turn this... **into this?**

With **DirectScan** from Muratec converting paper documents into digital files is simple, convenient and fast.

DirectScan enables:

- Color and monochrome documents to be scanned directly into PC folders without having to install any additional hardware or software connectors
- Simple one-touch scanning using shortcuts keys
- Conversion into TIFF, PDF or JPEG file format
- Is available on the Muratec F-525, F-565, MFX-1450, MFX-2050, MFX-2350 and MFX-2850

Additional Benefits:

- Name the file prior to scanning using the intuitive QWERTY keypad to make indexing and retrieval painless
- Seamlessly import scanned documents into a document management system
- The F-525, F-565, MFX-1450 and MFX-2050 feature a small footprint that enables users the ability to scan documents to their PC from a device located in their workgroup, as opposed to having to go to a centralized scanner

DEPLOY. DUPLICATE. DIGITIZE. DELIVER.
