**MURATEC AMERICA, INC. PARTNERS WITH ACCESS CONTROL DEVICES INC.**

PLANO, Texas—(Feb. 2, 2016)—Muratec America, Inc., manufacturer of multifunction office equipment and business productivity solutions, announces a partnership with Access Control Devices Incorporated (ACDI) in Little Rock, Ark. to provide PaperCut print management software for its multi-function printers.

“We’ve been working hard to provide our dealers a competitive edge,” said Jim D’Emidio, president at Muratec America, Inc. “Direct integration with PaperCut’s print management software allows our dealers to provide more value while helping their customers lower print costs and reduce waste.”

PaperCut’s print management software has helped over 60,000 organizations lower their print costs and environmental impact by reducing their consumables waste. One of PaperCut’s primary goals is to reduce printing levels by changing a user’s printing behavior. Print monitoring and quota implementation are just a few of the ways PaperCut draws attention to a user’s copying and printing habits.

Chris Dance, founding partner at PaperCut, adds, “We’re excited to see the partnership between ACDI and Muratec. ACDI is a proactive PaperCut sales and support organization with customer service values in common with our own. They are perfectly equipped with the skill-set to compliment the team at Muratec to deliver a great customer experience.”

Josh Lane, CEO, ACDI, says, “The partnership formed today between these two great companies is a natural fit. With everything that ACDI, Muratec and PaperCut bring to the table, in the end, the winner is the customer. Welcome aboard, Muratec.”

Matt Bennett, director of sales, ACDI says, “We’re excited about the agreement and the chance to work with one of the best multifunction digital office equipment providers in the world today. Our mutual customers should expect great things to come from this arrangement.”

Contact your Muratec area sales manager for more information about how this partnership can impact your office equipment dealership.
