+++: Supplier’s confidential information

Hazardous Ingredients:
None present
3. HAZARDS IDENTIFICATION

Emergency Overview: Green Cylinder
Almost odorless
Classification: Not classified as dangerous. (1999/45/EC)
Most Important Hazards and Effects of the Products
For Human Health: No symptoms expected with intended use.
For the Environment: No data are available on the adverse effects of this product on the environment.
For Others: None
Specific Hazards: None

4. FIRST-AID MEASURES

Symptoms of Overexposure: No symptoms expected with intended use.
Routes of Entry: None

Information
Inhalation: No treatment is required.
Skin Contact: No treatment is required.
Eye Contact: No treatment is required.
Ingestion: No treatment is required.

Note to Physician: None

5. FIRE-FIGHTING MEASURES

Suitable Extinguishing Media: CO₂, water, foam and dry chemical
Extinguishing Media to Avoid: None
Special Firefighting Procedures: None
Fire and Explosion Hazards: This material has no unusual fire or explosive hazards.
Protection of Firefighters: No special equipment is required.

6. ACCIDENTAL RELEASE MEASURES

Personal Precautions: Not applicable with intended use.
Environmental Precautions: Not applicable with intended use.
Methods for Cleaning Up: Not applicable with intended use.

7. HANDLING AND STORAGE

Handling
Technical Measures: None
Precautions: This product will be scorched in the case of fire.
Safe Handling Advice: None.

Storage
Technical Measures: None
Storage Conditions: Keep and Store in a cool and dry place.
Incompatible Products: None
Packing Materials: None
8. EXPOSURE CONTROLS / PERSONAL PROTECTION

Engineering Measures
Ventilation: None required with intended use.

Control Parameters
OSH-PEL(USA): Not Applicable
ACGIH-TLV(USA): Not Applicable
DFG-MAK(EC): Not Applicable
Worksafe-TWA(Austl): Not Applicable

Personal Protective Equipment
None required when used as intended in Konica Minolta equipment.

Hygiene Measures: Wash hands after handling.

9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance
Physical State: Solid
Form: Cylinder
Color: Green

Odor: Almost odorless

<<Results of the coated compounds on the aluminum substrate.>>

Boiling Point: Not applicable
Melting/SOftening Point: No data available
Flash Point: Not applicable
pH: Not applicable

Explosion Properties: Not applicable
Density(g/cm³): 1.2

Solubility in water: insoluble
Flammability: Not applicable

Oxidizing Properties: No data available
Ignition Temperature(°C): No data available

Vapor Pressure: Not applicable

Partition Coefficient, n-Octanol/Water: Not applicable

(*= Based on data for other Konica Minolta Products with similar ingredients)

10. STABILITY AND REACTIVITY

Stability: Stable [ X ] Unstable [ ]
Hazardous Reactions: None
Conditions to avoid: None
Materials to Avoid: None
Hazardous Decomposition Products: CO, CO2
11. TOXICOLOGICAL INFORMATION

Health Effects from Exposure: No symptoms expected with intended use.

Toxicological Data

<<Result of the coated compounds on the aluminum substrate.>>

Acute Toxicity:
- Inhalation, LC50(mg/l): Not applicable
- Ingestion (oral), LD50(mg/kg): No data available
- Dermal, LD50(mg/kg): Not applicable
- Eye irritation: No data available
- Skin irritation: No data available
- Skin sensitizer: No data available
- Mutagenicity: negative (AMES test)

Local Effects: No data available

Chronic Toxicity or Long Term Toxicity: None

Carcinogenicity
- IARC Monographs: Not listed
- NTP(USA): Not listed
- OSHA Regulated(USA): Not listed

12. ECOLOGICAL INFORMATION

No data available

13. DISPOSAL CONSIDERATION

Appropriate Methods of Disposal

Waste may be disposed or incinerated under conditions which meet all federal, state and local environmental regulations.

14. TRANSPORT INFORMATION

Special Precautions: None

Information on Code and Classifications According to International Regulations

UN Classification: None
15. REGULATORY INFORMATION

US Information
Information on the label: Not required
SARA (Superfund Amendments and Reauthorization Act) Title III
302 Extreme Hazardous Substance: None
311/312 Hazard Categories: None
313 Reportable Ingredients: None
California Proposition 65:
This product contains no chemical substances subject to California Proposition 65.

EU Information
Symbol & Indication: Not required
R-Phrase: Not required
S-Phrase: Not required
Article 14 (2.1) of Directive 1999/45/EC is not applicable to this product.

16. OTHER INFORMATION

NFPA Hazard Rating: The National Fire Protection Agency (USA):
Health: 0  Flammability: 1  Reactivity: 0
HMIS RATING: The National Paint and Coating Association (USA):

NTP(USA): Not listed
Symbol(EC): Not listed
3. HAZARDS IDENTIFICATION

Emergency Overview: Black powder (mean dia. is 5-10um by volume). Almost odorless.

Classification: Not classified as dangerous. (1999/45/EC)

Most Important Hazards and Effects of the Products

Ingestion Effect: None currently known.

Inhalation Effect: None currently known. Minimal respiratory tract irritation may occur as with exposure to large amount of any non-toxic dust.

Eye Effect: None currently known.

Skin Effect: None currently known.

Chronic Effects: Prolonged inhalation of excessive dusts may cause lung damage. Use of this product, as intended, does not result in inhalation of excessive dust.

Environment Hazards: No data are available on the adverse effects of this product on the environment.

Specific Hazards: Dust explosion (like most finely divided organic powders)

4. FIRST-AID MEASURES

Ingestion: Wash out mouth with water. Drink one or two glasses of water. If symptoms occur, get medical attention.

Inhalation: Move victim to fresh air immediately. If symptoms occur, get medical attention.

Eye Contact: Immediately flush eyes with plenty of water for 15 minutes. If symptoms occur, get medical attention.

Skin Contact: Wash with water and mild soap.

5. FIRE-FIGHTING MEASURES

Suitable Extinguishing Media: CO2, water spray, foam and dry chemical

Extinguishing Media to Avoid: Full water jet

Fire and Explosion Hazards: If dispersed in air, like most finely divided organic powders, may form an explosive mixture.

Protection of Firefighters: Use self-contained breathing apparatus (SCBA).

6. ACCIDENTAL RELEASE MEASURES

Personal Precautions: None

Environmental Precautions: None

Methods for Cleaning Up: Wear personal protective equipment (See Section 8). Vacuum or sweep material and place in a bag and hold for waste disposal. Use vacuum equipped with High Efficiency Particulate Air (HEPA) filter. Vacuum should be electrically bonded and grounded to dispel static electricity. To avoid dust generation, do not sweep dry.
7. HANDLING AND STORAGE

Handling
Technical Measures: None
Precautions: Do not breathe dust. Avoid contact with eyes.
Safe Handling Advice: Try not to disperse the particulates.

Storage
Technical Measures: None
Storage Conditions: Keep container closed. Store in a cool and dry place. Keep out of reach of children.
Incompatible Products: None
Packaging Materials: Bottles or Cartridge designated by Konica Minolta.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Engineering Measures
Ventilation: None required with intended use.

Control Parameters (As total dust)
- ACGIH-TLV(USA): 10mg/m3 (Inhalable particles), 3.0 mg/m3 (Respirable particles)
- OSHA-PEL(USA): 15mg/m 3 (Total dusts), 5.0 mg/m3 (Respirable fraction)
- DFG-MAK(GER): 4mg/m3 (Inhalable fraction), 1.5mg/m3 (Respirable fraction)
- Worksafe-TWA(Austl.): 10mg/m3

Personal Protective Equipment
Not required under normal conditions. For use other than in normal operating procedures (such as in the event of large spill), goggles and respirators may be required.

Hygiene Measures: Wash hands after handling.

9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance
- Physical State: Solid
- Color: Black
- Form: Powder (mean dia. is 5-10um by volume)
- Odor: Almost odorless
- PH: Not applicable
- Boiling Point(°C): Not applicable
- Melting Point(°C)/[F]: Around No data available /[] (Softening Point)
- Flash Point(°C): Not applicable
- Ignition Temperature(°C): No data available
- Explosion Properties: No data available
- Vapor Pressure: Not applicable
- Specific Gravity: 1.2
- Solubility: Insoluble in water.
- Partition Coefficient, n-Octanol/Water: Not applicable
10. STABILITY AND REACTIVITY

Stability: Stable except above 200°C (392°F).
Hazardous Reactions: Dust explosion, like most finely divided organic powders.
Conditions to avoid: Electric discharge, throwing into fire.
Materials to Avoid: Oxidizing materials.
Hazardous Decomposition Products: CO, CO2, NOx and smoke.
Hazardous Polymerization: Will not occur.

11. TOXICOLOGICAL INFORMATION

Acute Toxicity:
- Ingestion (oral), LD50 (mg/kg): >2000 (Rat) *
- Dermal, LD50 (mg/kg): No data available
- Inhalation, LC50 (mg/l): >5.13 (Rat, 4 hour) *
  (This was the highest attainable concentration.)
- Eye irritation: Practically None irritant (Rabbit) *
- Skin irritation: None irritant (Rabbit) *
- Skin sensitizer: Non sensitizer (Mouse) *

Local Effects: see Chronic Toxicity or Long term Toxicity

Chronic Toxicity or Long Term Toxicity:

In a two-year inhalation study of chronic toxicity and carcinogenicity using a typical toner in rats, there were no lung changes at all in the lowest exposure level (1 mg/m3), the most relevant level to potential human exposures. A minimal to mild degree of fibrosis was noted in 22% of the animals at the middle exposure level (4 mg/m3), and a mild to moderate degree of fibrosis was observed in 92% of the rats at the highest exposure level (16 mg/m3). The lung changes observed in the higher exposure groups are interpreted in terms of "lung overloading", a series of generic responses to the presence of large quantities of respirable, insoluble and relatively benign dusts retained for extended time periods in the lungs. Lung tumor frequency was unchanged among rats exposed to toner at the three exposure levels, and for air-only control rats.

Carcinogenicity

The IARC reevaluated carbon black as a Group 2B carcinogen (possible human carcinogen). This evaluation is given to Carbon Black for which there is inadequate human evidence, but sufficient animal evidence. The latter is based upon the development of lung tumors in rats receiving chronic inhalation exposures to free carbon black at levels that induce particle overload of the lung. Studies performed in animal models other than rats have not demonstrated an association between carbon black and lung tumors. Moreover, a two-year cancer bioassay using a typical toner preparation containing carbon black demonstrated no association between toner exposure and tumor development in rats.

The IARC reevaluated titanium dioxide as a Group 2B carcinogen (possible human carcinogen). In animal chronic inhalation studies, the tumor formulation observed in only rats with animal chronic inhalation study are attributed to "lung overloading", a generic response to excessive amounts of any dust retained in the lungs for a prolonged interval. Use of this product, as intended, does not result in inhalation of excessive dust. Epidemiological study to date have not revealed any evidence of the relation between exposure to titanium dioxide and diseases of the respiratory tract beyond general effects of dust.

Mutagenicity: Negative *(AMES test)
Teratogenicity: No data available

(∗= Based on data for other Konica Minolta Products with similar ingredients)
12. ECOLOGICAL INFORMATION
No data are available on the adverse effects of this material on the environment.
   Ecotoxicity: No data available
   Mobility: No data available
   Persistence and degradability: No data available
   Bioaccumulative potential: No data available

13. DISPOSAL CONSIDERATION
When disposing of the waste or recovered material, consult federal, state and/or local regulations for the proper disposal method.

11. TOXICOLOGICAL INFORMATION

Acute Toxicity:
- Ingestion (oral), LD50 (mg/kg): >2000 (Rat) *
- Dermal, LD50 (mg/kg): No data available
- Inhalation, LC50 (mg/l): >5.11 (Rat, 4-hour) * (This was the highest attainable concentration.)
- Eye irritation: Minimal irritant (Rabbit) *
- Skin irritation: None irritant (Rabbit) *
- Skin sensitizer: Non sensitizer (Mouse) *

Local Effects: see Chronic Toxicity or Long term Toxicity

Chronic Toxicity or Long Term Toxicity:
Prolonged inhalation of excessive dust may cause lung damage. It is attributed to "lung overloading", a generic response to excessive amounts of any dust retained in the lungs for a prolonged interval. Use of this product, as intended, does not result in inhalation of excessive dust.

In a study in rats by chronic inhalation exposure to a typical toner, a mild to moderate degree of lung fibrosis was observed in 92% of rats in the high concentration (16 mg/m³) exposure group, and a minimal to mild degree of fibrosis was noted in 22% of the animals in the middle (4 mg/m³) exposure group. But no pulmonary change was reported in the lowest (1 mg/m³) exposure group, the most relevant level to potential human exposures.

Carcinogenicity:
The IARC reevaluated titanium dioxide as a Group 2B carcinogen (possible human carcinogen). In animal chronic inhalation studies, the tumor formation observed in only rats with animal chronic inhalation study are attributed to "lung overloading", a generic response to excessive amounts of any dust retained in the lungs for a prolonged interval. Use of this product, as intended, does not result in inhalation of excessive dust. Epidemiological study to date have not revealed any evidence of the relation between exposure to titanium dioxide and diseases of the respiratory tract beyond general effects of dust.

Mutagenicity: Negative * (AMES test)

Eye Effect: None currently known.
Skin Effect: None currently known.
Chronic Effects: Prolonged inhalation of excessive dusts may cause lung damage. Use of this product, as intended, does not result in inhalation of excessive dust.
Environment Hazards: No data are available on the adverse effects of this product on the environment.
Specific Hazards: Dust explosion (like most finely divided organic powders)

4. FIRST-AID MEASURES

Ingestion: Wash out mouth with water. Drink one or two glasses of water. If symptoms occur, get medical attention.
Inhalation: Move victim to fresh air immediately. If symptoms occur, get medical attention.
Eye Contact: Flush eyes with plenty of water for 15 minutes. If symptoms occur, get medical attention.
Skin Contact: Wash with water and mild soap.

5. FIRE-FIGHTING MEASURES

Suitable Extinguishing Media: CO2, water spray, foam and dry chemical
Extinguishing Media to Avoid: Full water jet
Fire and Explosion Hazards: If dispersed in air, like most finely divided organic powders, may form an explosive mixture.
Protection of Firefighters: Use self-contained breathing apparatus (SCBA).

6. ACCIDENTAL RELEASE MEASURES

Personal Precautions: None
Environmental Precautions: None
Methods for Cleaning Up: Wear personal protective equipment (See Section 8). Vacuum or sweep material and place in a bag and hold for waste disposal. Use vacuum equipped with High Efficiency Particulate Air (HEPA) filter. Vacuum should be electrically bonded and grounded to dispel static electricity. To avoid dust generation, do not sweep dry.
7. HANDLING AND STORAGE

Handling

Technical Measures: None
Precautions: Do not breathe dust. Avoid contact with eyes.
Safe Handling Advice: Try not to disperse the particulates.

Storage

Technical Measures: None
Storage Conditions: Keep container closed. Store in a cool and dry place. Keep out of reach of children.
Incompatible Products: None
Packaging Materials: Bottles or Cartridge designated by Konica Minolta.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Engineering Measures

Ventilation: None required with intended use.
Control Parameters (As total dust)

ACGIH-TLV(USA): 10mg/m³ (Inhalable particles), 3.0 mg/m³ (Respirable particles)
OSHA-PEL(USA): 15mg/m³ (Total dusts), 5.0 mg/m³ (Respirable fraction)
DFG-MAK(GER): 4mg/m³ (Inhalable fraction), 1.5mg/m³ (Respirable fraction)
Worksafe-TWA(Austl.): 10mg/m³

Personal Protective Equipment

Not required under normal conditions. For use other than in normal operating procedures (such as in the event of large spill), goggles and respirators may be required.

Hygiene Measures: Wash hands after handling.

9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance

Physical State: Solid
Color: Red
Form: Powder (mean dia. is 5-10um by volume)

Odor: Almost odorless
PH: Not applicable
Boiling Point(°C): Not applicable
Melting Point(°C): Around 125°C (257°F) (Softening Point)
Flash Point(°C): Not applicable
Ignition Temperature(°C): No data available
Explosion Properties: No data available
Vapor Pressure: Not applicable
Specific Gravity: 1.2
Solubility: Insoluble in water.
Partition Coefficient, n-Octanol/Water: Not applicable
10. STABILITY AND REACTIVITY

Stability: Stable except above 200°C (392°F).

Hazardous Reactions: Dust explosion, like most finely divided organic powders.

Conditions to avoid: Electric discharge, throwing into fire.

Materials to Avoid: Oxidizing materials.

Hazardous Decomposition Products: CO, CO₂, NOₓ and smoke.

Hazardous Polymerization: Will not occur.

11. TOXICOLOGICAL INFORMATION

Acute Toxicity:

Ingestion (oral), LD₅₀ (mg/kg): >2000 (Rat) *

Dermal, LD₅₀ (mg/kg): No data available

Inhalation, LC₅₀ (mg/l): >5.06 (Rat, 4 hour) *(This was the highest attainable concentration.)

Eye irritation: Minimal irritant (Rabbit) *

Skin irritation: None irritant (Rabbit) *

Skin sensitizer: Non sensitizer (Mouse) *

Local Effects: see Chronic Toxicity or Long term Toxicity

Chronic Toxicity or Long Term Toxicity:

Prolonged inhalation of excessive dust may cause lung damage. It is attributed to "lung overloading", a generic response to excessive amounts of any dust retained in the lungs for a prolonged interval. Use of this product, as intended, does not result in inhalation of excessive dust.

In a study in rats by chronic inhalation exposure to a typical toner, a mild to moderate degree of lung fibrosis was observed in 92% of rats in the high concentration (16 mg/m³) exposure group, and a minimal to mild degree of fibrosis was noted in 22% of the animals in the middle (4 mg/m³) exposure group. But no pulmonary change was reported in the lowest (1 mg/m³) exposure group, the most relevant level to potential human exposures.

Carcinogenicity

The IARC reevaluated titanium dioxide as a Group 2B carcinogen (possible human carcinogen). In animal chronic inhalation studies, the tumor formulation observed in only rats with animal chronic inhalation study are attributed to "lung overloading", a generic response to excessive amounts of any dust retained in the lungs for a prolonged interval. Use of this product, as intended, dose not result in inhalation of excessive dust. Epidemiological study to date have not revealed any evidence of the relation between exposure to titanium dioxide and diseases of the respiratory tract beyond general effects of dust.

Mutagenicity: Negative *(AMES test)

Teratogenicity: No data available

(* Based on data for other Konica Minolta Products with similar ingredients)

12. ECOLOGICAL INFORMATION

No data are available on the adverse effects of this material on the environment.

Ecotoxicity: No data available

Mobility: No data available

Persistence and degradability: No data available

Bioaccumulative potential: No data available
13. DISPOSAL CONSIDERATION
When disposing of the waste or recovered material, consult federal, state and/or local regulations for the proper disposal method.

14. TRANSPORT INFORMATION
Information on Code and Classifications According to International Regulations
UN Classification: None

15. REGULATORY INFORMATION
US Information
Information on the label: Not required
TSCA (Toxic Substances Control Act):
All chemical substances in this product comply with all applicable rules or order under TSCA.
California Proposition 65:
This product contains no chemical substances subject to California Proposition 65.
EU Information
Article 14 (2.1) of Directive 1999/45/EC is not applicable to this product.
WHMIS (Canada): This product is NOT subject to the controlled products regulations.

16. OTHER INFORMATION
HMIS Rating: The National Paint and Coating Association (USA): Health: 1 Flammability: 1 Reactivity: 0
Recommended Uses: Toner for Electrophotographic Equipment
Explanation of term: IARC 2B means "possible human carcinogen".
Revision Information: Regular revision on revised date.

Acute Toxicity:
- Ingestion (oral), LD50 (mg/kg): >2000 (Rat) *
- Dermal, LD50 (mg/kg): No data available
- Inhalation, LC50 (mg/l): No data available
- Eye irritation: No data available
- Skin irritation: No data available
Skin sensitizer: No data available
Local Effects: see Chronic Toxicity or Long term Toxicity
Chronic Toxicity or Long Term Toxicity:
In a two-year inhalation study of chronic toxicity and carcinogenicity using a typical toner in rats, there were no lung changes at all in the lowest exposure level (1mg/m³), the most relevant level to potential human exposures. A minimal to mild degree of fibrosis was noted in 22% of the animals at the middle exposure level (4mg/m³), and a mild to moderate degree of fibrosis was observed in 92% of the rats at the highest exposure level (16mg/m³). The lung changes observed in the higher exposure groups are interpreted in terms of "lung overloading", a series of generic responses to the presence of large quantities of respirable, insoluble and relatively benign dusts retained for extended time periods in the lungs. Lung tumor frequency was unchanged among rats exposed to toner at the three exposure levels, and for air-only control rats.

Carcinogenicity
The IARC reevaluated carbon black as a Group 2B carcinogen (possible human carcinogen). This evaluation is given to Carbon Black for which there is inadequate human evidence, but sufficient animal evidence. The latter is based upon the development of lung tumors in rats receiving chronic inhalation exposures to free carbon black at levels that induce particle overload of the lung.
Studies performed in animal models other than rats have not demonstrated an association between carbon black and lung tumors. Moreover, a two-year cancer bioassay using a typical toner preparation containing carbon black demonstrated no association between toner exposure and tumor development in rats.

Mutagenicity: Negative *(AMES test)
Teratogenicity: No data available
(*= Based on data for other Konica Minolta Products with similar ingredients)

Personal Precautions: None
Environmental Precautions: None

Methods for Cleaning Up: Wear personal protective equipment(See Section 8). Vacuum or sweep material and place in a bag and hold for waste disposal. Use vacuum equipped with High Efficiency Particulate Air(HEPA) filter. Vacuum should be electrically bonded and grounded to dispel static electricity. To avoid dust generation, do not sweep dry.
7. HANDLING AND STORAGE

Handling

Technical Measures: None
Precautions: Do not breathe dust. Avoid contact with eyes.
Safe Handling Advice: Try not to disperse the particulates.

Storage

Technical Measures: None
Storage Conditions: Keep container closed. Store in a cool and dry place. Keep out of reach of children.
Incompatible Products: None
Packaging Materials: Bottles or Cartridge designated by Konica Minolta.

8. EXPOSURE CONTROLS/PERSOAL PROTECTION

Engineering Measures

Ventilation: No one required with intended use.
Control Parameters (As total dust)

ACGIH-TLV(USA): 10mg/m³ (Inhalable particles), 3.0 mg/m³ (Respirable particles)
OSHA-PEL(USA): 15mg/m³ (Total dusts), 5.0 mg/m³ (Respirable fraction)
DFG-MAK(GER): 4mg/m³ (Inhalable fraction), 1.5mg/m³ (Respirable fraction)
Worksafe-TWA(Austl.): 10mg/m³

Personal Protective Equipment

Not required under normal conditions. For use other than in normal operating procedures (such as in the event of large spill), goggles and respirators may be required.

Hygiene Measures: Wash hands after handling.

9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance

Physical State: Solid
Form: Powder (mean dia. is um by volume)

Odor: Almost odorless
PH: Not applicable
Boiling Point(°C): Not applicable
Melting Point(°C): Around 125°C (257°F) (Softening Point)
Flash Point(°C): Not applicable
Ignition Temperature(°C): No data available
Explosion Properties: No data available
Vapor Pressure: Not applicable
Specific Gravity: 5
Solubility: Insoluble in water.
Partition Coefficient, n-Octanol/Water: Not applicable
10. STABILITY AND REACTIVITY
Stability: Stable except above 200°C (392°F).
Hazardous Reactions: Dust explosion, like most finely divided organic powders.
Conditions to avoid: Electric discharge, throwing into fire.
Materials to Avoid: Oxidizing materials.
Hazardous Decomposition Products: CO, CO₂, and smoke.
Hazardous Polymerization: Will not occur.

11. TOXICOLOGICAL INFORMATION
Acute Toxicity:
- Ingestion (oral), LD₅₀ (mg/kg): >2000 (Rat) *
- Dermal, LD₅₀ (mg/kg): No data available
- Inhalation, LC₅₀ (mg/l): No data available
- Eye irritation: No data available
- Skin irritation: No data available
- Skin sensitizer: No data available

Local Effects: see Chronic Toxicity or Long term Toxicity
Chronic Toxicity or Long Term Toxicity:

Prolonged inhalation of excessive dust may cause lung damage. It is attributed to "lung overloading", a generic response to excessive amounts of any dust retained in the lungs for a prolonged interval. Use of this product, as intended, does not result in inhalation of excessive dust.

In a study in rats by chronic inhalation exposure to a typical toner, a mild to moderate degree of lung fibrosis was observed in 92% of rats in the high concentration (16mg/m³) exposure group, and a minimal to mild degree of fibrosis was noted in 22% of the animals in the middle (4mg/m³) exposure group. But no pulmonary change was reported in the lowest (1mg/m³) exposure group, the most relevant level to potential human exposures.

Carcinogenicity
- IARC Monographs: Not listed
- NTP (USA): Not listed
- OSHA Regulated (USA): Not listed

Mutagenicity: Negative * (AMES test)
Teratogenicity: No data available

(*= Based on data for other Konica Minolta Products with similar ingredients)

12. ECOLOGICAL INFORMATION
No data are available on the adverse effects of this material on the environment.
Ecotoxicity: No data available
Mobility: No data available
Persistence and degradability: No data available
Bioaccumulative potential: No data available
13. DISPOSAL CONSIDERATION

When disposing of the waste or recovered material, consult federal, state and/or local regulations for the proper disposal method.

14. TRANSPORT INFORMATION

Information on Code and Classifications According to International Regulations

UN Classification: None

15. REGULATORY INFORMATION

US Information

Information on the label: Not required
TSCA (Toxic Substances Control Act):
New chemical substance (LVE) under TSCA is included in this product.
California Proposition 65:
This product contains no chemical substances subject to California Proposition 65.

EU Information

Article 14 (2.1) of Directive 1999/45/EC is not applicable to this product.

WHMIS (Canada): This product is NOT subject to the controlled products regulations.

16. OTHER INFORMATION

HMIS Rating: The National Paint and Coating Association (USA): Health: 1  Flammability: 1  Reactivity: 0

Recommended Uses: Starter for Electrophotographic Equipment

Revision Information: Regular revision on revised date.

1. PRODUCT AND COMPANY IDENTIFICATION

Product Name: DV512M (Muratec DV3680M)

used for: C554/C454/C364/C284/C224 (Muratec MFX-C3680/MFX-C2880/MFX-C2280)

Supplier Identification:
Konica Minolta Business Solutions U.S.A., Inc.
100 Williams Drive, Ramsey, New Jersey 07446, U.S.A.
Telephone: 201-825-4000

Emergency Telephone No.
CHEMTREC
Telephone: 1-800-424-9300

2. COMPOSITION / INFORMATION ON INGREDIENTS

Substance [ ] Preparation [ X ]

Major Ingredients:

- Ferrite Iron oxide 1309-37-1 65-75
- Manganese oxide 1344-43-0 5-15
- Magnesium oxide 1309-48-4 5-15
- Styrene-acrylic resin +++ 1-10
- Acryl resin +++ 1-10
- Titanium dioxide 13463-67-7 <1

+++ : Supplier’s confidential information

Hazardous Ingredients:

Chemical Name: Manganese oxide
OSHA Z-Tables(USA): ceiling 5mg/m3
ACGIH-TLV(USA): 0.2mg/m3
Worksafe-TWA(Austl): 1mg/m3

Chemical Name: Titanium dioxide (<1%)
CAS No.: 13463-67-7
OSHA Z-Tables(USA): 15mg/m3
ACGIH-TLV(USA): 10mg/m3
NTP(USA): Not listed
IARC Monographs: Group 2B
Symbol(EC): Not listed
R-Phrase(EC): Not listed
Worksafe-TWA(Austl): 10mg/m3
3. HAZARDS IDENTIFICATION

Emergency Overview: Red powder (mean dia. is um by volume).

Classification: Not classified as dangerous. (1999/45/EC)

Most Important Hazards and Effects of the Products

Ingestion Effect: None currently known.

Inhalation Effect: None currently known. Minimal respiratory tract irritation may occur as with exposure to large amount of any non-toxic dust.

Eye Effect: None currently known.

Skin Effect: None currently known.

Chronic Effects: Prolonged inhalation of excessive dusts may cause lung damage. Use of this product, as intended, does not result in inhalation of excessive dust.

Environment Hazards: No data are available on the adverse effects of this product on the environment.

Specific Hazards: Dust explosion (like most finely divided organic powders)

4. FIRST-AID MEASURES

Ingestion: Wash out mouth with water. Drink one or two glasses of water. If symptoms occur, get medical attention.

Inhalation: Move victim to fresh air immediately. If symptoms occur, get medical attention.

Eye Contact: Flush eyes with plenty of water for 15 minutes. If symptoms occur, get medical attention.

Skin Contact: Wash with water and mild soap.

5. FIRE-FIGHTING MEASURES

Suitable Extinguishing Media: CO2, water spray, foam and dry chemical

Extinguishing Media to Avoid: Full water jet

Fire and Explosion Hazards: If dispersed in air, like most finely divided organic powders, may form an explosive mixture.

Protection of Firefighters: Use self-contained breathing apparatus (SCBA).

6. ACCIDENTAL RELEASE MEASURES

Personal Precautions: None

Environmental Precautions: None

Methods for Cleaning Up: Wear personal protective equipment (See Section 8). Vacuum or sweep material and place in a bag and hold for waste disposal. Use vacuum equipped with High Efficiency Particulate Air (HEPA) filter. Vacuum should be electrically bonded and grounded to dispel static electricity. To avoid dust generation, do not sweep dry.
7. HANDLING AND STORAGE

Handling
Technical Measures: None
Precautions: Do not breathe dust. Avoid contact with eyes.
Safe Handling Advice: Try not to disperse the particulates.

Storage
Technical Measures: None
Storage Conditions: Keep container closed. Store in a cool and dry place. Keep out of reach of children.
Incompatible Products: None
Packaging Materials: Bottles or Cartridge designated by Konica Minolta.

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Engineering Measures
Ventilation: None required with intended use.

Control Parameters (As total dust)
ACGIH-TLV(USA): 10mg/m3 (Inhalable particles), 3.0 mg/m3 (Respirable particles)
OSHA-PEL(USA): 15mg/m3 (Total dusts), 5.0 mg/m3 (Respirable fraction)
DFG-MAK(GER): 4mg/m3 (Inhalable fraction), 1.5mg/m3 (Respirable fraction)
Worksafe-TWA(Austl.): 10mg/m3

Personal Protective Equipment
Not required under normal conditions. For use other than in normal operating procedures (such as in the event of large spill), goggles and respirators may be required.

Hygiene Measures: Wash hands after handling.

9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance
Physical State: Solid
Color: Red

Odor: Almost odorless
PH: Not applicable
Boiling Point(°C): Not applicable
Melting Point(°C): Around 125°C(257°F) (Softening Point)
Flash Point(°C): Not applicable
Ignition Temperature(°C): No data available
Explosion Properties: No data available
Vapor Pressure: Not applicable
Specific Gravity: 5
Solubility: Insoluble in water.
Partition Coefficient, n-Octanol/Water: Not applicable
10. STABILITY AND REACTIVITY

Stability: Stable except above 200°C (392°F).
Hazardous Reactions: Dust explosion, like most finely divided organic powders.
Conditions to avoid: Electric discharge, throwing into fire.
Materials to Avoid: Oxidizing materials.
Hazardous Decomposition Products: CO, CO₂, and smoke.
Hazardous Polymerization: Will not occur.

11. TOXICOLOGICAL INFORMATION

Acute Toxicity:
- Ingestion (oral), LD₅₀ (mg/kg): >2000 (Rat) *
- Dermal, LD₅₀ (mg/kg): No data available
- Inhalation, LC₅₀ (mg/l): No data available
- Eye irritation: No data available
- Skin irritation: No data available
- Skin sensitizer: No data available

Local Effects: see Chronic Toxicity or Long term Toxicity

Chronic Toxicity or Long Term Toxicity:
Prolonged inhalation of excessive dust may cause lung damage. It is attributed to "lung overloading", a generic response to excessive amounts of any dust retained in the lungs for a prolonged interval. Use of this product, as intended, does not result in inhalation of excessive dust.

In a study in rats by chronic inhalation exposure to a typical toner, a mild to moderate degree of lung fibrosis was observed in 92% of rats in the high concentration (16 mg/m³) exposure group, and a minimal to mild degree of fibrosis was noted in 22% of the animals in the middle (4 mg/m³) exposure group. But no pulmonary change was reported in the lowest (1 mg/m³) exposure group, the most relevant level to potential human exposures.

Carcinogenicity
The IARC reevaluated titanium dioxide as a Group 2B carcinogen (possible human carcinogen). In animal chronic inhalation studies, the tumor formulation observed in only rats with animal chronic inhalation study are attributed to "lung overloading", a generic response to excessive amounts of any dust retained in the lungs for a prolonged interval. Use of this product, as intended, does not result in inhalation of excessive dust. Epidemiological studies to date have not revealed any evidence of the relation between exposure to titanium dioxide and diseases of the respiratory tract beyond general effects of dust.

Mutagenicity: Negative * (AMES test)
Teratogenicity: No data available

(*= Based on data for other Konica Minolta Products with similar ingredients)

12. ECOLOGICAL INFORMATION

No data are available on the adverse effects of this material on the environment.

Ecotoxicity: No data available
Mobility: No data available
Persistence and degradability: No data available
Bioaccumulative potential: No data available
13. DISPOSAL CONSIDERATION
When disposing of the waste or recovered material, consult federal, state and/or local regulations for the proper disposal method.

14. TRANSPORT INFORMATION
Information on Code and Classifications According to International Regulations
UN Classification: None

15. REGULATORY INFORMATION
US Information
Information on the label: Not required
TSCA (Toxic Substances Control Act):
All chemical substances in this product comply with all applicable rules or order under TSCA.
California Proposition 65:
This product contains no chemical substances subject to California Proposition 65.
EU Information
Article 14 (2.1) of Directive 1999/45/EC is not applicable to this product.
WHMIS (Canada): This product is NOT subject to the controlled products regulations.

16. OTHER INFORMATION
HMIS Rating: The National Paint and Coating Association (USA): Health: 1 Flammability: 1 Reactivity: 0
